Dear tourist,

Masquerade loves Stockholm, Stockholm loves you, and we hope that you love us. We have marked a yarn graffiti trail for you, to guide you to the most charming, delightful, magnificent, pleasant and stunning places in this city. We want to expand your horizons. The streets of Stockholm are filled with amazing views and art, legal and illegal. The legal kind, you can find in your regular guide book, but the illegal kind you have to look for yourself.

Street art is everchanging. It comes and goes, so don't be alarmed if some marks on the trail have disappeared. That's part of the appeal. And while looking for them, you might find other pieces instead.

Masquerade wishes you a pleasant stay!
